## INFORMACIÓN IMPORTANTE

En realidad, el auxilio de transporte no se debería considerar en el cálculo de ningún concepto de nómina, **pero como toda norma tiene su excepción, el auxilio de transporte sí debe incluirse para calcular las prestaciones sociales.**

Esto porque de forma expresa la ley así lo ha considerado. En efecto, el artículo 7 de la ley 01 de 1.963 de forma expresa establece que el auxilio de transporte se debe incorporar al salario para calcular las prestaciones sociales.

En resumen, el auxilio de transporte no se incluye para calcular los aportes parafiscales ni los aportes a seguridad social, pero sí se incluye para calcular las prestaciones sociales.

## Porcentajes de cotización (trabajadores y emple

Tipo aporte	Trabajador dependiente	
	El empleador aporta	El trabajador aporta
Aportes salud	8.5%	4%
Aportes a pensión	12%	4% (más un 1% adicional si el ingreso base de cotización es superior a 4 salarios mínimos mensuales vigentes y hasta 16 salarios mínimos)
Aportes a riesgos laborales	De acuerdo a la tarifa de riesgos que tenga el empleado, varía de acuerdo al nivel de riesgos	0%

Aportes al SENA	2%	0%
Aportes al ICBF	3%	0%
Aportes a Caja de Compensación	4%	0%

- El servicio de la App debe contar con un sistema de geolocalización para ubicar la posición del chip en donde sea que este se encuentre  
- Ventana de confirmación de pago tanto para el que oferta como para el que busca

Muchas gracias por la atención y quedo atento a sus comentarios

**Nelson J. R. E.**  
Monto presupuestado: **CO\$ 7.103.529,41**

Hola buenas días, a continuación se presenta la siguiente estructura de trabajo para el desarrollo de la aplicación móvil, en conjunto con los programas de servidor que funcionan en el servidor destino. Las funciones a desarrollar son:

- Registrar usuarios que ofertan y que buscan.
- Sección de términos y condiciones del servicio.
- Los que ofertan deben poder modificar precios en su momento.
- Los que buscan deben acceder al sistema de geolocalización para ubicar a las personas registradas en el app que ofertan)
- Los que buscan pueden reservar el ingreso a los establecimientos.
- Los que buscan pagan a través de tarjeta de crédito y débito.
- La App debe enviar una alarma, mensaje o vibración cuando el usuario se acerque a un establecimiento.
- El servicio de la App debe contar con un sistema de geolocalización para ubicar la posición del chip en donde sea que este se encuentre

Por favor **no incluyas** información de contacto.

Monto presupuestado: CO\$ 10.245.509,30

Se llevará a cabo desarrollo a medida para una aplicación móvil:  
Para la aplicación móvil:

Se utilizará Ionic Framework en su versión 3 (V3) se utilizará Firebase para obtener las características de Firebase para demás funcionalidades se desarrollará una API en PHP para el backend administrativo:

Se utilizará PHP como lenguaje de base siguiendo el patrón MVC.  
El acceso a las consultas será mediante ORM aumentando la seguridad.  
Para la interfaz se utilizará HTML5, CSS3 y Jquery para el frontend.

### Forma de trabajo:

El trabajo inicia con la aceptación de la presente propuesta.  
Fase 1: Diseño. Nuestro equipo de diseñadores trabajará en el diseño de la interfaz de usuario, basándose en las referencias y material proporcionado por el cliente. Una vez aprobado el diseño se procederá a la maquetación.  
Fase 2: Maquetación. Nuestro equipo de maquetadores se encargará de maquetar el diseño en HTML5, CSS3 y Jquery, incluyendo las funcionalidades de animación, mas no programación en el frontend.  
Fase 3: Programación. Nuestro equipo de desarrolladores se encargará de programar la aplicación móvil, incluyendo el registro de usuario, login, y cada una de las pantallas de la aplicación.

### Forma de pago:

Fase 1 aprobada: El cliente libera el 10% del monto total.

## El enredo para cobrar el IVA por servicios digitales

Todas las empresas que presten un servicio desde el exterior a Colombia se convierten en responsables del IVA y deben pagarlo. Así quedó consignado en la reforma tributaria aprobada por el Congreso.

En el artículo 180 del proyecto que se convirtió en Ley de la República, quedó claro que todos los servicios electrónicos o digitales, tales como proveedor de video, música, películas y todos los servicios de plataforma por aplicaciones móviles, deben responder por un IVA de 19 %, es decir, la tarifa general de este impuesto.

En otras palabras, los servicios de música como Spotify y Deezer, las plataformas de video como Netflix o las de hospedajes como Airbnb, deberán recaudar el impuesto y pagarlo.

Incluso, esto aplica para cursos de idiomas que se tomen por internet, boletines de avión que se compran en el exterior, entre muchos otros servicios digitales.

Pero esto no es cuestión de soplar y hacer botellas. “Se determinó que habrá un periodo de 18 meses para que todas las empresas que presten servicios desde el exterior en Colombia tengan un Registro Único Tributario (RUT) y empiecen a pagar el IVA a la Dian”, aseguró a este diario *Natasha Avendaño García*, directora de Gestión Organizacional de la Dian.

La funcionaria agregó que la iniciativa busca equiparar las condiciones de los prestadores de servicios en Colombia.

Pero aquí es donde se enreda el asunto. Si en 18 meses la totalidad de las empresas no tienen RUT y todo listo para cobrar el IVA, se aplicará un mecanismo de retención por medio de las entidades bancarias.

Algo así: si usted va a inscribirse a Netflix, y esa compañía aún ha hecho el procedimiento con la Dian, al momento de hacer el pago, el banco retendrá un porcentaje (que no se sabe si será equivalente al IVA de 19 %), dicho monto llegará a la empresa con la que contrató el servicio.

“Nos preocupa mucho cómo se van a decretar esos gravámenes y cómo los implementarán las empresas. Percibimos una imposibilidad material de efectuar una retención y son altos los impactos operativos para los agentes retenedores (bancos)”, aseguró *Victoria Virviescas Calvete*, directora de la Cámara Colombiana de Comercio Electrónico (Ccce).

Y el proceso se complica aún más porque la directora de gestión organizacional de la Dian indicó que el procedimiento de retención aún no está establecido “vamos a estructurarlo en los próximos meses, para eso está dado el plazo julio de 2018”, agregó.

EL TIEMPO | 'Los parqueaderos no son un negocio lucrativo'

No obstante, como respuesta a los primeros operativos que realizó el Distrito, varios centros comerciales acataron la nueva norma tarifaria.

Gran Estación, por ejemplo, no solo ajustó sus cobros con rapidez, sino que se alió con el Distrito y terminaron de socios para llevar a cabo la carrera en contra de las minas antipersonas que se realizará el próximo 12 de abril; Santafé, luego de una discusión jurídica, también ajustó sus tarifas de 150 a 48 pesos por minuto, al igual que el centro comercial Andino, según lo confirmó la Administración Distrital, pero este último prefirió no responder las preguntas formuladas por EL TIEMPO.

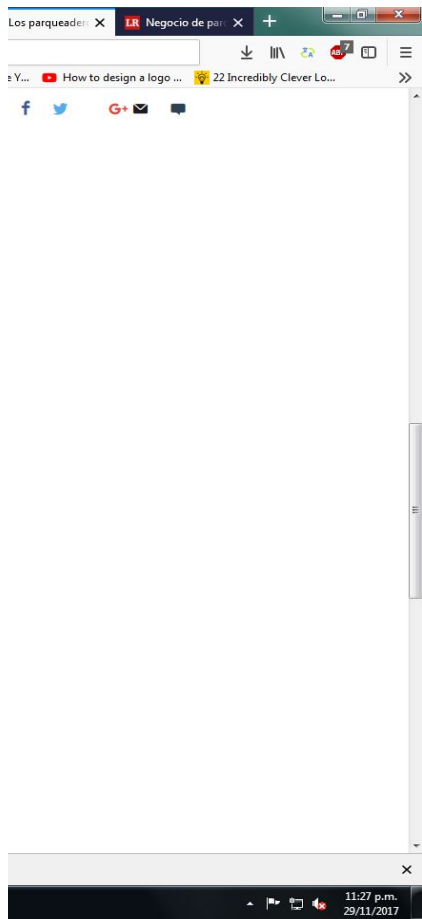

Mientras tanto, otros centros comerciales como Palatino estudian la medida y no quisieron confirmar la entrada en vigencia de la nueva tarifa. "El tema de parqueaderos está en proceso de definición, por lo que hacemos las consultas y asesorías pertinentes", le dijeron a este diario a través de un comunicado.

Unicentro, que opera de forma directa su parqueadero, con un sistema de automatización de estacionamientos basados en fibra óptica y cámaras de alta definición, dice que siempre se ha preocupado por el control absoluto de uno: 13 000 vehículos que estacionan en sus instalaciones a diario.

Esta semana, luego de haber sido consultados por EL TIEMPO, anunciaron que por decisión de la junta de comerciantes, ajustarían su tarifa a 48 pesos el minuto con IVA incluido, las 24 horas del día, a partir del pasado viernes 10 de abril.

Eso quiere decir que los cobros por horas o cuartos dejarán de regir en este parqueadero.

No obstante, dejaron claro que el negocio de los parqueaderos nunca fue lucrativo.

## Cálculo Impuesto al Patrimonio

### Ejemplo 1.

Total patrimonio bruto  
**\$1.050 millones**

- Deuda con el sistema financiero: \$51 millones
- = Patrimonio líquido: \$ 999 millones

\* En este caso no tendría que pagar el impuesto

### Ejemplo 2.

Total patrimonio bruto  
**\$1.000 millones**

- Deuda \$0
- De este valor puede deducir el valor de su inmueble de domicilio (Ej. \$340 millones)
- = Base para aplicar el impuesto: \$660 millones

\* En este caso no tendría que pagar el impuesto

### Ejemplo 3.

Total patrimonio bruto  
**\$1.800 millones**

- Deudas \$100 millones
- Valor inmueble de habitación \$340 millones
- Total patrimonio líquido: \$1.360 millones

Impuesto a pagar (0.4% ) \$5.440.000

### Ejemplo 4.

Total patrimonio bruto  
**\$1.000 millones**  
representado en apartamento

- Deuda hipotecaria: \$300 millones
- = Patrimonio líquido: \$700 millones
- Apartamento: \$700 millones
- Esposo: \$350 millones
- Esposa: \$350 millones

\* En este caso no tendría que pagar el impuesto

Deducciones que se pueden realizar para determinar el impuesto:

- Valor de la vivienda
- Valor patrimonial de las acciones en empresas

Se mantiene en  
**1.000 millones**  
el nivel de ingresos  
mínimo para pagar el  
impuesto en 2015.

Conforme a lo dispuesto en el artículo 240 del ET modificado por el artículo 100 de la Ley 1819 de 2016, la tarifa general del impuesto de renta para las personas jurídicas para el año gravable 2018 será del 33 %. La tarifa de la sobretasa en renta para ese mismo período será del 4 %.

Los contribuyentes del impuesto sobre la renta pagaron un 33 % sobre la renta líquida desde el 1 de enero de 2008 hasta el 31 de diciembre de 2012. A partir de 2013 se aplicó una tarifa del 25 %, con excepción de las rentas obtenidas por las sociedades y entidades extranjeras que no sean atribuibles a una sucursal o establecimiento permanente de estas, las cuales estuvieron sometidas a las siguientes tarifas: conforme al artículo 28 de la Ley 1739 de 2014: 39 % para 2015, 40 % para 2016, 41 % para 2017 y 43 % para 2018.

Por consiguiente, el artículo 100 de la Ley 1819 de diciembre 29 de 2016 modificó el artículo 240 del ET indicando que la tarifa general del impuesto sobre la renta sería del 34 % para el año gravable 2017 y del **33 % en los años siguientes** (es decir, a partir del año gravable 2018). Dicha tarifa será aplicable a las sociedades nacionales y sus asimiladas, establecimientos permanentes de entidades del exterior y personas jurídicas extranjeras que se encuentren obligadas a presentar la declaración anual del impuesto sobre la renta y complementario.

Es importante destacar, que a lo largo del artículo 240 del ET **se especifican las excepciones en que ciertas empresas aplicarían la tarifa especial en renta del 9 %**.

Adicionalmente, es necesario tener en cuenta que el párrafo transitorio segundo del artículo 100 del ET establece que las personas jurídicas deben **liquidar una sobretasa del 4 % sobre la renta** por los años gravables 2017 y 2018. En lo concerniente al año gravable 2017 se debe aplicar una tarifa del 4 % si la base gravable supera los \$800.000.000 (para el año gravable 2017 la tarifa era del 6 %).

---

## SAL

---

En Colombia las sociedades anónimas, limitadas, extranjeras y las sociedades por acciones, están obligadas por ley a crear una reserva para proteger

patrimonio de la sociedad en caso de pérdidas.

En el código de comercio, en el caso de las sociedades anónimas la reserva legal debe ser igual al 50% del capital suscrito, y se conformará por el 10% de las utilidades de cada periodo .

En el caso de las sociedades en comanditas por acciones, limitadas y extranjeras (en el código de comercio, artículos 350, 371, y 476 respectivamente), dice la norma, que deberán aplicar las mismas reglas que para las sociedades anónimas.

De acuerdo a lo anterior, cada año se debe destinar el 10% de las utilidades líquidas a la reserva legal, hasta que se cumpla con el tope del 50% exigido por la ley.

Una vez alcanzado ese valor ya no es obligatorio seguir apropiando el 10%, pero en el momento que el valor de las reservas se vea disminuido, debe procederse nuevamente a destinar el 10% hasta alcanzar de nuevo el 50% del capital suscrito en el caso de las sociedades por acciones, y del capital aportado y/o pagado en el caso de las sociedades limitadas.

## App móvil

Mensajes con Nelson J. R. E. (5)  Ocultar

- El servicio de la App debe contar con un sistema de geolocalización que interactúe con un chip de rastreo

ubicar la posición del chip en donde sea que este se encuentre.  
- Ventana de confirmación de pago tanto para el que oferta como para el que busca.

Muchas gracias por la atención y quedo atento a sus comentarios y sugerencias.

**Nelson J. R. E.**

Monto presupuestado: CO\$ 7.103.529,41

Hola buenas días, a continuación se presenta la siguiente oferta de servicios relacionados al desarrollo de un framework apache cordova, en conjunto con los programas de base de datos y servicios web relacionados a una app que funcionan en el servidor destino. Las funcionalidades específicas del app son las siguientes:

- Registrar usuarios que ofertan y que buscan.
- Sección de términos y condiciones del servicio.
- Los que ofertan deben poder modificar precios en su publicación, ubicación, horarios de atención.
- Los que buscan deben acceder al sistema de geolocalización para llegar a los sitios de los que ofertan (personas registradas en el app que ofertan)
- Los que buscan pueden reservar el ingreso a los establecimientos de los que ofertan.
- Los que buscan pagan a través de tarjeta de crédito por intermedio de la app. (Se programa la app en su país, cuya api debe ser proporcionada a mi persona, con los datos respectivos)
- La App debe enviar una alarma, mensaje o vibración cuando el que busca se acerque a cualquier establecimiento.
- El servicio de la App debe contar con un sistema de geolocalización que interactúe con un chip para ubicar la posición del chip en donde sea que este se encuentre.

Por favor **no incluyas** información de contacto.
